Jingzhi (Connie) Yang

Los Angeles, CA (Open to Relocation) | 434-833-0798 | jingzhi.yang.2027@anderson.ucla.edu | jingzhiyang.com | LinkedIn

Product strategy and analytics professional using SQL, experimentation, customer insights, and AI-enabled workflows to shape roadmaps, improve operations, and drive measurable growth across digital products.

EDUCATION

UCLA ANDERSON SCHOOL OF MANAGEMENT — Los Angeles, CA
Master of Science in Business Analytics (MSBA) | Merit-Based Scholarship Recipient — Sep 2026 - Dec 2027

- Business Fundamentals for Analytics, SQL & Basic Data Management, Optimization, Data Management, Prescriptive Models & Data Analytics, Customer Analytics, Competitive Analytics, Operations Analytics, Product Management

UNIVERSITY OF VIRGINIA — Charlottesville, VA
Bachelor of Arts in Media Studies, Minor in Data Science and Statistics — Aug 2022 - May 2026

- **Cumulative GPA**: 3.9/4.0 | **Honors**: Dean's List, Omicron Delta Kappa, Raven Society
- Multivariable Calculus, Linear Algebra, Probability, Statistical Modeling, Communicating with Data, Data Science Systems, Machine Learning, Data Visualization & Management, Population Data Analysis, Strategic Brand Consulting & Communications

EXPERIENCE

Amplify — New York, NY
Product Strategy Intern – Product Analytics & Roadmap Strategy — Jun 2026 - Aug 2026

- Built a SQL and Looker dashboard analyzing 400K+ teacher sessions, identifying five navigation pathways and three high-friction drop-off points, and translating findings into a 15-page deck informing UX priorities and product roadmap decisions
- Evaluated customer, win/loss, adoption, and market data for California K–12 literacy, producing a $6M opportunity assessment and bid recommendation for a statewide adoption process in which 90% of participating teachers recommended the product
- Directed Florida ELA adoption planning from market-entry analysis through cross-functional operating plan, aligning Sales, Marketing, and Analytics on research, timelines, and launch gates, reducing future effort by ~50% through a reusable framework

Storyblocks — Arlington, VA
Product Marketing Intern – Product Insights & Lifecycle Strategy — Jul 2025 - Sep 2025

- Segmented 78K+ users by retention, churn, and engagement behavior using SQL and Mode, delivering a lifecycle framework that improved campaign open rates by ~10% and informed account-level retention plans for three enterprise renewals
- Translated mixed-method enterprise research and product usage data into an AI product-use playbook, prioritizing use cases around authenticity and presenting recommendations to Product and Creative teams to guide adoption and positioning
- Developed an internal competitive-intelligence GPT integrated with the Owler API, replacing a manual Slack-based workflow and automating competitor data retrieval to save ~40 minutes per person weekly and reduce research time by 60%

APSolway (Global Solar & Energy Storage Technology Company) — Shanghai, China
Data Analyst Intern – Growth Analytics & AI Automation — Jan 2025 - Jun 2025

- Conducted a $4.6K Meta growth experiment across audience and creative segments, measuring acquisition cost, conversion, and lead quality to generate 1,350 qualified inquiries and identify higher-value B2B segments for budget reallocation
- Created acquisition dashboards tracking funnel conversion, lead quality, CPC, CAC, and budget pacing across audiences, creatives, and regions, shifting spend toward B2B segments to reduce CPC by 18% and inform weekly growth and budget decisions
- Implemented multi-agent AI workflows to automate campaign research, localization, and creative generation across LATAM, South Asia, and Africa, reducing execution time by ~80% and significantly lowering manual workload

CollegeBot (now VideoTutor) (AI-Powered EdTech Search Platform) — San Jose, CA
Product Manager - Growth & Experimentation — Jul 2024 - Dec 2024

- Launched an onboarding and search roadmap with Engineering and Design, using A/B tests to reduce drop-off by 25% and increase first-time feature adoption by 40% while introducing a QA and bug-triage workflow that cut development time by 30%
- Established an instrumentation and KPI framework across activation, search success, CTR, adoption, and retention, creating consistent feature-launch scorecards and a weekly product performance review cadence
- Synthesized behavioral data, 1,200+ survey responses, and 40+ interviews across 18 colleges into product requirements for a transparency Q&A, reducing privacy-related support tickets by 80% and improving retention by 32% after launch
- Scaled the platform to 10K+ active users by running acquisition experiments across TikTok, Meta, SEO, and campus activations, using channel performance data to prioritize lower-cost growth opportunities and reduce paid acquisition spend by 75%

SKILLS

Product: Roadmap Prioritization, Product Requirements, KPI Design, Customer Research, Customer Segmentation
Strategy & Operations: Market Sizing, Competitive Analysis, Go-to-Market Strategy, Cross-Functional Program Management
Analytics & Experimentation: A/B Testing, Experiment Design, Funnel Analysis, Cohort Analysis, Retention Analysis, Ad Measurement
Programming & AI: SQL, Python (pandas, NumPy, scikit-learn), R (tidyverse, ggplot2), LLM & Agentic AI Workflows, APIs, Git
Data & BI: Tableau, Looker, Mode, Salesforce, Google Analytics, Excel (PivotTables, VBA), Figma, Meta Ads Manager
