Jingzhi (Connie) Yang

Los Angeles, CA (Open to Relocation) | (434)-833-0798 | jingzhi.yang.2027@anderson.ucla.edu | Portfolio | LinkedIn

Analytics professional using SQL, Python, experimentation, and research to understand user behavior, evaluate product performance, and guide product, growth, and marketing decisions across digital and AI products.

EDUCATION

UCLA ANDERSON SCHOOL OF MANAGEMENT — Los Angeles, CA
Master of Science in Business Analytics (MSBA) | Merit-Based Scholarship Recipient — Sep 2026 - Dec 2027

- Business Fundamentals for Analytics, SQL & Basic Data Management, Optimization, Data Management, Prescriptive Models & Data Analytics, Customer Analytics, Competitive Analytics, Operations Analytics, Product Management

UNIVERSITY OF VIRGINIA — Charlottesville, VA
Bachelor of Arts in Media Studies, Minor in Data Science and Statistics — Aug 2022 - May 2026

- **Cumulative GPA**: 3.9/4.0 | **Honors**: Dean's List, Omicron Delta Kappa, Raven Society
- Multivariable Calculus, Linear Algebra, Probability, Statistical Analysis & Modeling, Data Science Systems, Machine Learning, Communicating with Data, Data Visualization & Management, Applied Business Analytics, Population Data Analysis

EXPERIENCE

AMPLIFY — New York, NY
Product Strategy Intern - Product Analytics & User Adoption — Jun 2026 - Aug 2026

- Built a SQL and Looker dashboard analyzing 400K+ teacher sessions, identifying five common navigation pathways and three high-friction drop-off points to inform UX and roadmap recommendations presented in a 15-page insights deck
- Analyzed customer, win/loss, market, and adoption data for California K–12 literacy products, sizing a $6M potential opportunity and informing bid strategy for an adoption process in which 90% of participating teachers recommended the product
- Owned Florida ELA adoption planning, using market-entry analysis to recommend entry and align Sales, Marketing, and Analytics on research, timelines, and launch gates, reducing future planning effort by ~50% through a reusable framework

STORYBLOCKS — Arlington, VA
Product Marketing Intern - Product Analytics & Lifecycle — Jul 2025 - Sep 2025

- Analyzed retention, churn, and engagement behavior across 78K+ users using SQL and Mode, developing lifecycle segments that improved campaign open rates ~10% and informed retention strategies for 3 enterprise renewals
- Led mixed-method enterprise research and analyzed product usage data to identify authenticity as a core customer value for AI workflows, translating these findings into an AI product-use playbook and priority use cases pitched to Product and Creative
- Developed an internal competitive-intelligence GPT integrated with the Owler API, replacing a manual Slack-based workflow and automating competitor data retrieval to save ~40 minutes per person weekly and reduce research time by 60%

APSOLWAY (Global Solar & Energy Storage Technology Company) — Shanghai, China
Data Analyst Intern - Growth & Ad Measurement — Jan 2025 - Jun 2025

- Conducted a $4.6K Meta Ads experiment across audience and creative segments, measuring CAC, CVR, and lead quality to generate 1,350 qualified inquiries and identify higher-value B2B segments for budget reallocation
- Created acquisition dashboards tracking funnel conversion, lead quality, CPC, CAC, and budget pacing across audiences, creatives, and regions, using performance insights to shift spend toward high-value B2B segments and reduce CPC by 18%
- Implemented multi-agent AI workflows to automate campaign research, localization, and creative generation across LATAM, South Asia, and Africa, reducing execution time by ~80% and significantly lowering manual workload

COLLEGEBOT (now VideoTutor) (AI-Powered EdTech Search Platform) — San Jose, CA
Product Manager - Growth & Experimentation — Jul 2024 - Dec 2024

- Owned onboarding and search experimentation with Engineering and Design, launching A/B tests that reduced drop-off by 25% and increased feature adoption by 40%, with a QA and bug-triage workflow cutting development time by 30%
- Defined instrumentation and success metrics across activation, search success, CTR, adoption, and retention, standardizing feature launch evaluation and weekly product performance reviews
- Synthesized behavioral data, 1,200+ survey responses, and 40+ interviews across 18 colleges to identify AI-usability concerns; proposed and launched a transparency Q&A that reduced privacy-related tickets by 80% and improved retention by 32%
- Ran growth experiments across TikTok, Meta, SEO, and grassroots campus activations, using channel performance data to prioritize low-cost acquisition and scale the product to 10K+ active users while reducing paid acquisition spend by 75%

SKILLS

Programming Languages: SQL, Python (pandas, NumPy, scikit-learn), R (tidyverse, ggplot2, tidymodels)
Analytics: A/B Testing, Experiment Design, Causal Inference, Metric Design, Funnel Analysis, Cohort Analysis, Retention Analysis
Data & BI: Looker, Mode, Tableau, Google Analytics, Salesforce, Excel, Git, Power BI
AI & Measurement: Machine Learning, NLP, Ad Measurement, CAC/CVR/ROI, LLM & Agentic AI Workflows, Claude Coding
